

Non-Powered Carts

BY ALTUS

Care Moves. Roll With it.

Altus designs workstations to improve the workflows of clinicians and staff. **We manufacture durable, ergonomic, and compact computer workstations to give clinicians the equipment they need to offer an exceptional care experience.**

Dependable Workstations on Wheels

H-class non-powered carts by Altus are the cornerstone of our mobile workstation family. With their ergonomic design, and durability features, H-class carts allow clinicians to effortlessly move through their daily tasks without feeling fatigued.

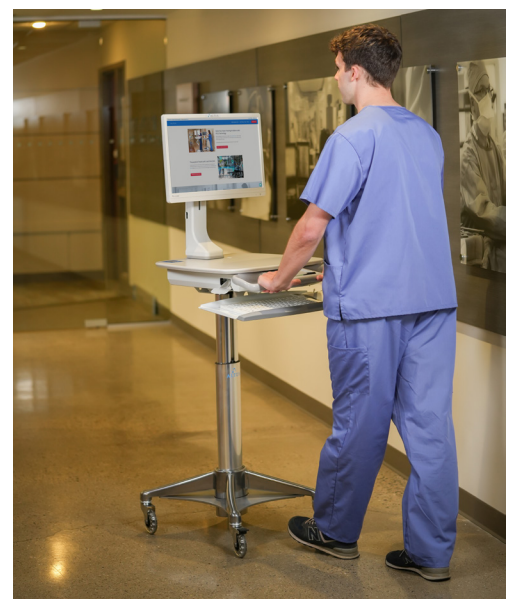

Clinician-Focused

Altus non-powered carts offer an ergonomic design and lightweight build for effortless use by any clinician. They allow for healthcare workers to chart and move from room-to-room while offering a high level of care.

Dependable, ready-to-go workstations

- Ships fully assembled, making deployment faster and easier
- Manufactured with solid, yet lightweight, die cast aluminum for years of constant use
- Over the last two years, less than 0.5% of Altus carts required service fixes and many of our carts are still in service after 10+ years
- A large portfolio of service and warranty programs putting time back into your day
- Smart designs to work with any technology

Highly Mobile

- Four caster options to fit any application:
 - Standard single-wheel rollerblade casters for optimal maneuverability
 - Single-wheel shrouded casters for use in a clinical environment
 - Tente heavy duty casters for maximum mobility over thresholds
 - Runner casters for maneuverability in an office setting
- Small base footprint for easy movement and the ability to squeeze into tight places
- Compact worksurfaces to maximize available work space for equipment and technology

Ergonomic

- Easily move from sitting to standing with Altus' proprietary Ascend lift technology
- Offers 18" of effortless sit-to-stand height adjustment
- Convenient hand lever
- Tilt and adjust monitors to fit each clinician
- Lightweight design

Increase patient satisfaction with our portfolio of eight nature inspired color options that help reduce stress and promote healing.

H-Class Laptop Cart – HLC7P2 and MPC-43P with Single-Wheel Rollerblade Casters

“Our organization has purchased and deployed more than 400 Altus carts over the span of 7 years. As a testament to their durability, all of these carts remain in production today. Product and service is fantastic and continues to exceeded our expectations.”

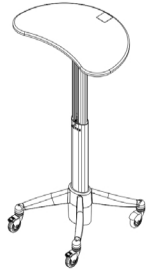

- Troy Durepo, Business Systems Analyst,
Project Coordinator, Lee Health
