

Bathinet

Immersion bathing for rooming-in

convergent[®] | innovative
medical

Convenient. Mobile. Revolutionary. A bathinet was the imagination of a nurse, and it was made a reality with the help of Convergent-Innovative Medical. When staff is strapped for time, instead of bringing each infant back to the nursery for bathing, why not bring the bath to the baby? In the process, you have hands-on involvement and training from clinicians to the mother/parents.

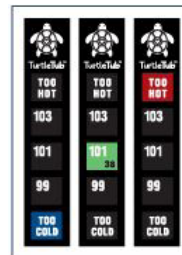

✓ Benefits

- Designed and built for the 24/7/365 demands of the healthcare environment
